## Welcome to Clinic 31/Weston Centre

**The Weston Centre (Clinic 31) looks after children from 0-18 years of age.**

The children coming to the clinic have Diabetes or Endocrine problems and the doctors and nurses will be checking to see if the medicines they are taking are working and to see if the person is growing well.

### How do I get to Weston Centre (Clinic 31)?

Car park two is closest to the clinic. Follow directions to the 'ATC'. Once in the ATC, the clinic entrance is through the doors to the right of the lifts.

When you get in to the clinic, let the receptionist know that you have arrived.

### When is the clinic open?

The clinic is open from 09:00 until 17:00.

### Who will I be seeing?

You may be seeing a doctor and a nurse or just a nurse whilst you are in clinic. They will be able to tell you what is happening and what the plan is for coming back into hospital for an appointment. You will be weighed and your height will be recorded. You may also have other tests such as a urine test or blood test. The nurses will tell you if you need any of these and explain it all to you.

### What can I do if I am hungry?

There is a coffee shop just outside the clinic for you to get some food after your appointment if you want to. There are some chairs and tables outside the clinic that you can sit on to eat and drink. Unfortunately, there are no catering facilities in the clinic.

Please do not take hot drinks into the clinic area as there are little children around who may knock them over.

## Welcome to Clinic 31/Weston Centre

### What can I do whilst I am waiting?

There is a waiting area that you can sit in whilst you are waiting to be called to see the doctor or nurse.

There is a games console for you to play on if you would like to.

You can bring a tablet or some music to listen to with you but you have to look after it yourself. You may want to bring a book or magazine to look at while you wait.

### Can I use my mobile phone?

You are able to use a mobile telephone for calls.

### How can I get in touch with the clinic?

The telephone number for the clinic is 01223 348576. Please use this number for appointment queries.

To speak to the Paediatric Endocrine Nurses please call 01223 217496.

To speak to the Diabetes Educator Team please call 01223 274638.

### The address is:

The Weston Centre (Clinic 31)  
Addenbrooke's Hospital  
Hills Road  
Cambridge  
CB2 0QQ

### Where can I get more information from?

You can ask for a parent information leaflet on outpatient clinic visits which will have more details about the visit and the type of tests that may be done.
