# Oral and maxillofacial surgery and orthodontics

## Contact us

**All appointments:** 01223 216 412

**Orthodontic clinic:** 01223 216 412

**Maxillofacial laboratory:** 01223 216 636

## Specialist areas of surgery include those for:

- Salivary gland disease
- Head and neck malignancy
- Facial deformity
- Facial prosthetics
- Maxillofacial trauma
- Disease of the temporomandibular joints and/or facial pain
- Oral disease

We offer a multidisciplinary-team-based approach in head and neck oncology, and cleft lip and palate, and work closely with consultants in the ear, nose and throat (ENT), plastic surgery, neurosurgery and cancer services.

The combined department of oral and maxillofacial surgery and orthodontics is supported by a full-time maxillofacial technician, who has special expertise in maxillofacial prostheses.

## Specialist clinics

- Facial deformity (orthognathic) clinic
- Joint cleft lip and palate clinic (role of max.fax technicians)
- Joint head and neck oncology clinic

---

## Orthodontics

The orthodontic department works closely with the maxillofacial and plastic surgeons and offers a consultation service to all local practitioners. Treatment within the hospital is undertaken only on complex cases.

## Specialist Restorative Dentistry

A consultant and specialist in restorative dentistry works closely with medical and dental consultant colleagues in the cleft lip and palate, head and neck cancer and hypodontia multidisciplinary teams providing specialist consultations and treatments for these patients.
