

Inpatients

Your involvement in your own care not only helps to make your stay in hospital better, it helps us to learn and adapt our service for the benefit of everyone.

Therefore, we welcome your views, they help us to know when we are getting it right, but it is equally important to know when we are getting it wrong so we can use this information to give all our patients the best care possible.

- Have your say

If there is anything further you need to know before you are admitted, please contact us on the telephone number on your admission letter or see our ward information page.
