
Art exhibition: Printmaking Exhibition (until 10 June)

29 April 2019

In this printmaking exhibition you will find some familiar traditional techniques of printmaking including etchings and linocuts alongside some fairly new methods, where artists have used carborundum and collagraphs.

Broad horizons of the fens, wildlife habitats (in and out of the water) contrast delightfully with urban scenes and architecture.

All the artwork is for sale – please contact Addenbrooke's Arts on **01223 217519**. 25%

commission on sales goes towards running the Arts programme.
