

# Testing

**Cambridge University Hospitals (CUH) is offering COVID-19 antigen testing to all admitted patients who are staying in hospital overnight.** This test determines whether a person currently has COVID-19.

**Some patients receiving planned care at the Trust will also be booked for a testing appointment prior to their procedure.** These appointments are pre-booked and will be arranged by the clinical team caring for a patient.

**The hospital is not providing tests to members of the general public.** Members of the public who have COVID-19 symptoms (new, continuous cough; high temperature; or loss of or change in your normal sense of smell or taste) should visit [www.nhs.uk/coronavirus](http://www.nhs.uk/coronavirus) or call 111 to arrange a test. These tests are carried out at a range of testing centres across the region.
