

Finding us

The Emmeline Centre offers appointments at two locations on the Addenbrookes site, please check each appointment location carefully so you do not end up in the wrong place.

The first location is on Outpatients, Level one. You need to go through Clinic 14 to get to the centre (Ophthalmology). After entering through Clinic 14, the route is sign posted to the Emmeline Centre. The centre is opposite the bus station near the Hills Road entrance to the hospital.

The second location is in Coton House, Flat 21. The house is sign posted from car park one. When you arrive you need to call the buzzer. The house is close to the Frank Lee and a disabled car park.

There is also a map attached to help you find your way to the locations.
