

## Ward R3 - Neurosciences

### Telephone:

01223 216348

The PIU is a day case facility for neurology patients who require a number of investigations to aid their diagnosis. These may include imaging, neurophysiology and lumbar punctures. Patients may also be admitted for treatments such as intravenous immunoglobulin.

Both neurology and neurosurgery hold clinics on R3. In addition, some neuropsychology and neurophysiology is undertaken here.

### Finding us:

Ward R3 can be found on level 3 of the hospital.

From the main hospital entrance: Turn right as you enter through the revolving door at the hospital main entrance, turn left and walk past the hairdresser, across the corridor and past ward D2 (on your right). Take the corridor in front of you, signposted F and G wards. Head down the F&G ward corridor on level 2. Take the stairs or lifts to level 3 and R3 will be clearly sign posted.

If you are likely to be hospitalised for two weeks or more, your visitors can get a discounted parking ticket from the main reception. This allows you to exit from the car parks for 14 consecutive days from the day you validate the ticket.
