The CDC looks after children from 0-18 years of age.

The children coming to the clinic have lots of different conditions. They come so that the doctors can check they are well and to check they are growing as they would have expected.

Directions:
From the main reception go past the hairdressers and then turn right at the ‘cross roads’. Follow the corridor and signs for the ‘Rosie Maternity Hospital’. When you get to the corridor on the left signposted for the Rosie, you can either go down the stairs and the CDC is on the right. Or alternatively you can go into the Rosie and use the first lifts that you come to. Go down to level 1 and turn left out of the lifts. The CDC is down this corridor on the left.

When you get in to the clinic, let the receptionist know that you have arrived.

Opening times:
The clinic is open from 08:30 until 17:30.

Who will I be seeing?
You may be seeing a doctor and a nurse or just a nurse whilst you are in clinic. They will be able to tell you what is happening and what the plan is for coming back into hospital for an appointment. You will be weighed to see how heavy you are and your height will be taken to see how well you are growing.

You may also be coming to see a physiotherapist or dietician. There is a gym area for physiotherapy.
Things to do:
There is a play room in the clinic for you to spend some time in while you are waiting.

There is normally some colouring that you can do. You can bring your favourite book with you if you want to or you can bring a hand held computer game with you but you have to look after it yourself.

There is also a garden area for a sunny day.

Mobile telephones:
You are able to use a mobile telephone for urgent calls only.

Talking to the ward:
The telephone number for the CDC is 01223 216662.

The address is:
The Child Development Centre
Box 107, Addenbrooke’s Hospital
Hills Road, Cambridge, CB2 0QQ
